750+	\$15	5,000+	\$10		

GUIDELINES

Customers must purchase and plant the same volume of corn, soybeans, and/or alfalfa as the previous year. Each crop is qualified separately from the other, i. e., if corn units purchased and planted are the same as last year and the soybean usage decreases, the discount is earned only on the corn purchase.

This is a company sponsored program; all customers and dealers are eligible to qualify. *Proud to Grow Burrus* and the *Growth Advantage* programs are “either-or” programs and may not be combined. Pertinent discount(s) will be given on all units (compared to 2016 final sales) as long as volume is maintained through settlement. Discounts will be voided if the customer’s volume falls below the minimum requirement or last year’s final sales number.

“RETENTION” IS MAINTAINING
CORN, SOYBEAN, AND/OR ALFALFA
VOLUME YEAR OVER YEAR.
