HARVESTED - STAND: Oct 21 33.8 /A

TEST COMMENTS:

Nice plot. The early season offered good emergence and was nice and uniform at the v5 stage. The plot did catch some August rains which really helped with grain fill. This plot was on a lighter sandy type of soil that typically has problems producing this type of yields. Pollination filled the ears and kernels had a nice deep set. Leaves were clean of any diseases. Corn shelled nice and clean with only the ears going through the combine.
